## X-Stand Display

No instructions needed! The X-Stand Banner Display is so easy to use, there will be no unexpected delays when setting up. Simply expand the four corners and attach a grommeted banner. The unit accommodates banners as large as 65" high by 28" wide and the banner hooks adjust so you can display smaller banners as well.

- Includes carrying case
- Weighs just 2 lbs.

a

## Sturdy "L" Display

The Sturdy "L" combines ease of use and solid structural support in one attractive display. The banner is held tight by snap rails and requires no special finishing. And, you'll never lose the end caps of the banner rails because they twist open for banner installation. The sturdy foot stays attached to the bottom rail and folds in for easy set up and storage. Image size 78" x 35".

- Snap rails for easy banner mounting
- Won't tip over – great for high traffic areas
- No tools required for set up
- No parts to lose
- Hard cardboard tube inside case protects graphic
- Includes carrying case
- Weighs just 7 lbs.

b

## Retractor Display

The most cost effective retractor on the market. Its self-furling mechanism makes it appropriate for temporary displays or for advertising seasonal specials. Silver metal base, comes with carrying case.

- Totally self-contained
- Holds a 34.5" x 80" graphic.
- No banner finishing required
- Weighs 15 lbs.
- Includes carrying case.
- Perfect for shows and presentations.
